This high-quality steel bracket is tested to a 10,000-pound rating - meeting and exceeding ANSI and OSHA regulations. As the only two-man tie-off bracket and the only one to pass a 90° drop test using 564 pounds, it stands as the strongest and safest option on the market.

- Enhance Productivity
- **Tested to a 10,000 Pound Rating**
- Meets & Exceeds ANSI & OSHA Regulations
- ONLY Two-Man Tie-Off Bracket on the Market
- **Full 360° Swivel, Easily Maneuver on Both Sides**
- Able to Hook Horizontal Lifeline from Peak-to-Peak
- **Passed a 90° Drop Test Using 564 Pounds ONLY BRACKET ON THE MARKET!**
- Strongest Roof Bracket on the Market
- Reusable
- Zinc Coated for Rust Prevention
- Made of High Quality Steel

LIFEGRAB ROOF BRACKET KIT

ITEM #: OTS1009RBKIT Two 360° Degree Roof Brackets & One 50-foot Lifeline

LIFEGRAB ELEVATED ROOF BRACKET KIT

ITEM #: OTS1011ERBKIT

Two Elevated Roof Brackets & One 50-foot Lifeline

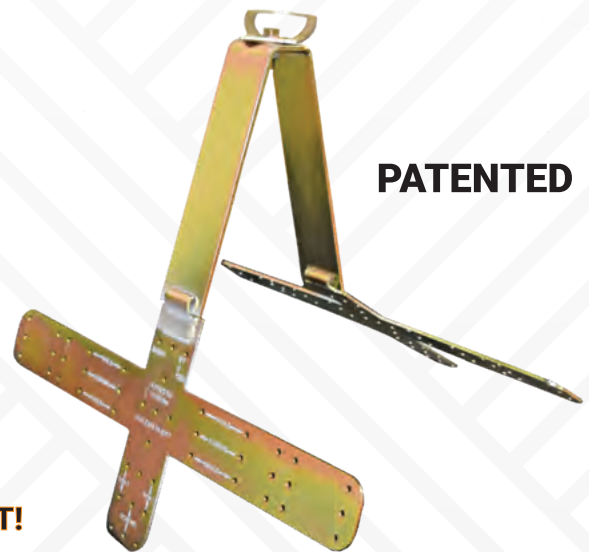

THE ONLY BRACKET
ON THE MARKET THAT HAS
PASSED A 90° DROP TEST!

LIFEGRAB ELEVATED ROOF BRACKET

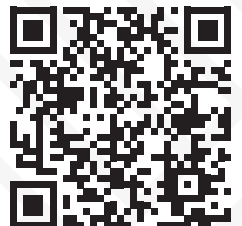

ITEM #: OTS1008ERB

The Lifegrab Elevated Roof Bracket is engineered to prevent rope grabs and fall protection equipment from catching on roofing materials, enhancing both safety and productivity. Ideal for commercial flat roofs, it includes multiple hole positions for varying roof joist spans, making it the strongest and most versatile elevated bracket available.

- Enhance Productivity
- **Tested to a 5,000 Pound Rating**
- Meets & Exceeds ANSI & OSHA Regulations
- **Full 360° Swivel, Easily Maneuver on Both Sides**
- Able to Hook Horizontal Lifeline from Peak-to-Peak
- **Passed a 90° Drop Test ONLY BRACKET ON THE MARKET!**
- Strongest Elevated Roof Bracket on the Market
- Reusable & Also Works on **Commercial Flat Roofs**
- Multiple Hole Positioning for Different Roof Joist Span
- Zinc Coated for Rust Prevention
- Made of High Quality Steel

PATENTED

LIFEGRAB ELEVATED ROOF BRACKET KIT

ITEM #: OTS1011ERBKIT Two Elevated Roof Brackets & One 50-foot Lifeline

LIFEGRAB UPPER LADDER STABILIZER

ITEM #: OTS1006LS

The Lifegrab Ladder Stabilizer allows workers to secure a ladder against a structure, without using unreliable bungee cords, reducing the possibility of the bottom of the ladder from kicking out or from sliding due to the transition between the two. Our Life Grab Ladder Stabilizer exceeds OSHA standards.

- Easy Installation
- **Compatible with ALL Ladders**
- Durable Construction
- Exceeds OSHA Standards
- Weighs 2 lbs.
- 60" Straps
- Patent Pending Securement System
- **Reduces Ladder from Kicking Out or Sliding**

LIFEGRAB LOWER LADDER STABILIZER

ITEM #: OTS1010LLS

The lifegrab lower ladder stabilizer is designed to reduce ladder kick out and prevent the ladder from tipping. A key feature is the lock assembly on the lower ladder stabilizer, helping create a desired angle for safe climbing.

- Adjustable Legs Conform to Uneven Surfaces
- Cradle Assembly Provides Desired Angle During Ladder Setup
- **Helps Prevent the Ladder from Kicking Out from the Bottom & Tipping Left or Right**
- Fast & Easy Assemble & Disassemble
- Durable, Lightweight Design
- Helps Stabilize the Ladder while Extending to Appropriate Height

**FACT: LADDER FALLS
ARE A LEADING
CAUSE OF UNINTENTIONAL
INJURIES & DEATHS
IN THE UNITED STATES.**

EAGLE CLAW SAFETY TIE OFF CART

ITEM #: OTS1001EC

The Eagle Claw Safety Cart provides exceptional safety as a 4 man tie-off cart for any potential falls. With the Eagle Claw Safety Cart, every project site becomes a safer one.

- **Weighs ONLY 650 lbs vs. Competition at 1123 lbs**
- Maximum Protection for up to 4 Workers
- Up to 2 People Can Tie Off for Fall Arrest Protection
- Up to 2 People Can Tie Off for Fall Restraint
- **Only Fall Protection Cart with a Built-in Shock Pack**
- Shock Pack Reduces Fall Arrest to 740 lbs with a Minimal Fall Clearance of Only 6 Inches
- Minimizes Potential Injuries & Liabilities that Result from Muscle Strains & Worker Fatigue
- **Can be Stand Alone or Flawlessly Integrated with our Fast Track Fall Protection Guardrail System for Additional Fall Protection**
- Meets & Exceeds ANSI & OSHA Regulations

FALCON SAFETY TIE OFF CART

ITEM #: OTS1002FC

The **ONLY PATENTED CART** with a built-in shock pack. The Falcon, a 3-man tie-off cart, can reduce fall arrest down to 740 lbs. of force, providing reliable protection for your team.

- **Lightest on the Market! Weighs ONLY 450 lbs**
- Maximum Protection for up to 3 Workers
- Compact & Mobile for Quick Set-up Between Jobs
- Up to 1 Person Can Tie Off for Fall Arrest Protection
- Up to 2 People Can Tie Off for Fall Restraint
- Only Fall Protection Cart with a Built-in Shock Pack
- **Patented Shock Pack Reduces Fall Arrest to 740 lbs with a Minimal Fall Clearance of Only 6 Inches**
- Minimizes Potential Injuries & Liabilities that Result from Muscle Strains & Worker Fatigue
- Meets & Exceeds ANSI & OSHA Regulations

FAST TRACK 2X4 SYSTEM

ITEM #: OTS10042X4

Incorporate the Fast Track 2x4 System & Hinge Plate Combination into your safety regimen and revolutionize your team's rooftop experience.

- **Fastest & Most Versatile System on the Market**
- Mounts to Roof Edge
- Able to be Installed Over a Gravel Stop, Metal Lock, or on a Reverse Angle Wood Edge
- Multiple Holes to Accommodate Any Wood Nailer
- Tested & Proven as the Strongest Post
- 10 Inches of Adjustment
- Meets & Exceeds ANSI & OSHA Regulations

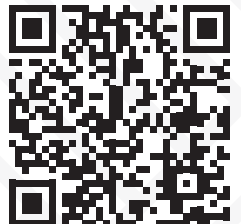

FAST TRACK GUARDRAIL SYSTEM

ITEM #: OTS1003FTC

Our fall prevention guardrail system has the quickest setup time on the market. An easy 5-step installation process and considerably fewer pieces in our system, saves significant time.

- **Fastest Set Up Time on the Market**
- Eliminates Tangled Ropes
- 400 Linear Feet of Cable
- Fits Flat, Overhang & Parapet Roofs
- **Conforms to ALL Building Radiuses**
- Mounts to Roof Edge
- Meets & Exceeds ANSI & OSHA Regulations

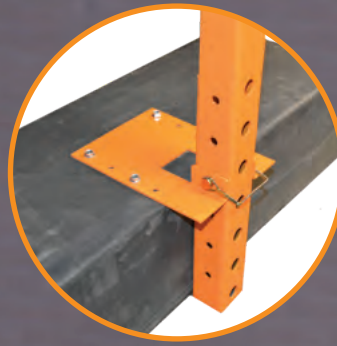

FAST TRACK 2X4 & CABLE ALL-IN-ONE SYSTEM

ITEM #: OTS101FTSK

Incorporate the Fast Track 2x4 All-In-One System into your safety regimen and revolutionize your team's rooftop experience.

- **Only All-in-One System on the Market**
- Mounts to Roof Edge
- Able to be Installed Over a Gravel Stop, Metal Lock, or on a Reverse Angle Wood Edge
- Multiple Holes to Accommodate Any Wood Nailer
- Tested & Proven as the Strongest Post
- 10 Inches of Adjustment
- Meets & Exceeds ANSI & OSHA Regulations

**Adjustable Hinge
Plate & Post**

CONCRETE PAVER LIFTER

ITEM #: OTS1005CPL

Lifting tons of concrete pavers across a worksite is an extremely demanding task. Fatigue quickly builds up after lifting numerous pavers, which can lead to less careful movements and muscle strains from the lower back, arms, legs and neck. A serious strain can put a worker out for several weeks, with the potential for reinjury to occur.

- Easily Transport 24" X 24" Concrete Pavers
- **Reduce Injury & Increase Efficiency**
- Redistributes the Weight for a Lighter Load
- Clamping Mechanism Reduces Hand Injuries
- **We Make Custom Paver Lifters for Various Sizes**
- Meets & Exceeds ANSI & OSHA Regulations

On Top Safety – Limited 1-Year Product Warranty

At On Top Safety, we stand behind the quality and performance of our products. That's why we offer a limited one-year warranty on all of our safety equipment and tools, effective from the original date of purchase.

What's Covered?

This warranty covers any defects in material or workmanship under normal use during the warranty period. If a defect is found and a valid claim is submitted within one year of the purchase date, On Top Safety will, at its discretion, repair or replace the product at no charge.

What's Not Covered?

This warranty does not cover:

- Damage caused by improper use, installation, or maintenance
- Normal wear and tear due to prolonged or excessive usage
- Alteration or modification of the product
- Damage from accidents, abuse, misuse, or negligence
- Third-party components not manufactured by On Top Safety

How to Make a Claim:

To initiate a warranty claim, please contact our customer service team at Zack@ontopsafety.com with proof of purchase, a description of the issue, and clear photographs of the product in question. Claims without supporting documentation may not be accepted.

Workplace safety is essential in every environment - especially for workers operating at height. Roofing presents unique challenges, from varying elevations to hard-to-reach areas, all of which increase the risk of serious accidents. A single misstep or unstable surface can result in a dangerous fall.

At **On Top Safety**, we've developed a comprehensive line of fall protection equipment designed specifically to make rooftop work safer and more efficient. Our innovative solutions not only meet but exceed OSHA standards, they help ensure every worker goes home safe.

Discover our full range of products and see how we're redefining rooftop safety.
